(contents continued)

NBQX inhibits AMPA-induced locomotion after injection into the nucleus accumbens
R.C. Boldry, M.D. Kelland, T.M. Engber and T.N. Chase (USA) 331
Comparison of the pressor effects of angiotensin II and III in the rostral ventrolateral medulla
S. Sasaki, Y.-W. Li and R.A.L. Dampney (Australia) 335
Co-localization of two calcium binding proteins in GABA cells of rat piriform cortex
Y. Kubota and E.G. Jones (Japan, USA) 339
Maturation-related changes in tolerance development to hexobarbital after short term treatment with diazepam in the rat
S. Korkmaz, S. Carlsson and G. Wahlström (Sweden) 345
Failure to generate action potentials in newborn diaphragms following nerve stimulation
A.R. Bazzy and D.F. Donnelly (USA) 349
Peripheral bombesin induces c-*fos* protein in the rat brain
B. Bonaz, R. De Giorgio and Y. Taché (USA) 353
